

Who needs BestCare?

- Anyone needing a helping hand at home with personal care and household chores.
- Individuals wanting to maintain their independence and remain at home.
- Patients wishing to discharge early from the hospital (assuming medically fit to do so) and convalesce at home.
- Family members wanting peace of mind knowing that their loved one is safe, secure and cared for while they are absent or at work.
- Family caregivers needing a break.
- Individuals with dementia and other debilitating conditions that require more complex care.
- Anyone that requires assistance with mobility to attend outpatient appointments, run errands or attend specific events.

BestCare is Always There

703-497-2273
www.BestCareHomeCare.com

There is a reason that “care” is part of our name. Listen to what our clients have to say about us:

On Christmas day when my mother’s caregiver had an emergency, the owner of BestCare spent the night with my mom at the nursing home. We have used other agencies but since we were introduced to BestCare, we have not used any other company. They are what caring is all about.

E. Hunter
Fair Oaks, VA

Communication is essential to building strong relationships and the healthiest outcomes—for everyone—patient and family.

I am far away from my mom, but thanks to BestCare I feel close because of the weekly notes. I am always kept well-informed about how my Mom is doing. This is an excellent service and I am thankful to the entire caring and brilliant nursing staff.

T. Johnson
San Diego, CA

We attend to every concern—big or small. We listen and respond.

Theodora is always responsive to our father’s needs whether it’s a bath, change of clothes or new linens. She even makes sure to put lotion on him before she leaves. She always does what is necessary with a smile on her face. Her reliability is never in doubt. She is wonderful!

Linda D.
Alexandria, VA

Reliability is a necessity.

“BestCare is always there” is a true statement. We have used BestCare for more than two years and they have always been there for us. Day, night, snow days, and cold days—they make it happen. BestCare is an excellent company to work with.

G. McEntee
Leesburg, VA

Caregivers are carefully placed to assure compatibility.

We especially liked the free introductory meeting with your caregiver to assure compatibility. It helped us to get the right caregiver from the start. Thank you.

The Grinnells
Ashburn, VA

It is crucial to be comfortable with the person who comes into your home to care for someone you love—especially when you are not able to be there.

Because we had total confidence in the care and attention provided by BestCare, we were able to take a previously planned two-week vacation. On returning, we received a wonderful surprise — our father was walking without walker or cane. We will be forever indebted to the caregivers from BestCare and consider them family. They are a group of outstanding professionals, and kind and caring individuals. They are truly the best.

Evelyn B.
Haymarket, VA

BestCare is a Virginia State Licensed In-Home Health Care Agency and we are proud to be accredited by the Community Health Accreditation Program, Inc (CHAP).

This honor is awarded only to home health care

agencies that meet the industry’s highest nationally recognized standards.

Live-In or Hourly Care?

Live-In Health Care is the solution that helps keeps seniors in their own homes for as long as possible. This maximizes the ability to remain independent while enjoying familiar surroundings. Because caregivers are in the home around the clock, the client is not left unattended and strain on the family is minimized.

Sometimes all you need is someone to visit to make sure everything is alright. With the BestCare Flat Rate Home Health Aide Visit you can have a home health aide stop by your home for a safety or wellness check, medication reminders — whatever is needed to keep care at home on track.

Arrange your free consultation and let BestCare develop the care plan that works best for you.

Medicaid can often mean the difference between having your loved one in a nursing facility or remaining comfortably in their own home.

Medicaid is an income-based assistance program that helps pay for medical care; Medicaid Waivers were developed to allow the elderly and people with disabilities to receive care in the community instead of in an institution. BestCare is a Virginia Medicaid personal care provider and consumer-directed service facilitator for the EDCD and MR Waivers.

For more information on the Medicaid application process, please contact a BestCare representative.

Medicare pays for you to receive some health care services in your home if you

meet certain eligibility criteria and if the services are considered reasonable and necessary for the treatment of your illness or injury.

The focus of Medicare Home Health Benefits is to address an acute change to bring you back to your baseline level of function that existed prior to your illness or injury. Patients must need skilled nursing care or physical therapy and they must be confined to home in order to qualify. This care is usually of short duration — most patients are discharged after a single 60-day episode of care.

If you or a loved one are in need of information related to your Medicare Home Health Benefits, call BestCare for a free consultation to answer all your questions.

Contact BestCare today with your questions or to set up a meeting. There is no obligation and the initial case assessment is free.
